Together these ingredients create a sophisticated formula inspired by nature and centuries of winemaking traditions.

4. CRAFTED IN SMALL BATCHES

NOT MASS PRODUCED

ECOVIT® is produced in limited quantities to ensure consistent quality and attention to every detail.

Every batch is carefully prepared using premium ingredients and strict quality standards.

We believe that small-batch production allows us to preserve authenticity and maintain exceptional quality.

Quality always comes first.

5. NATURAL ANTIOXIDANT POWER

Polyphenols naturally found in wine are considered an important element of functional nutrition. ECOVIT® allows consumers to enjoy these valuable compounds without alcohol exposure.

Thanks to the combination of alcohol-free wine concentrate and natural acacia honey, ECOVIT® provides a broad spectrum of bioactive substances and high antioxidant activity.

Scientific research suggests that wine polyphenols may help support:

HELPS PREVENT AGING
Helps protect cells from oxidative stress related to aging.

IMMUNE FUNCTION
Supporting the body's natural defense mechanisms.

CARDIOVASCULAR WELLNESS
Contributing to overall heart and vascular health as part of a healthy lifestyle.

RECOVERY AND VITALITY
Helping maintain physical and mental balance during periods of stress and increased activity.

OVERALL WELL-BEING
Supporting everyday vitality and quality of life.
